

Creekside is partnering with Elk Grove HART and the City of Elk Grove to move families-without- homes into brand new city subsidized apartments.

Creekside is being given the opportunity to help **make a 2-bedroom apartment into a home for one family - a single mom with 2 boys.** We are being asked to furnish the apartment. The family has NO household furnishings. They are starting from scratch. So we have the privilege to bless them by filling the apartment with items that not only meet the needs but will delight their hearts.

All donated items need to be gently used and in good condition or brand new.
